

MURKING WORK ON CHASERS.

Dean's Shipyard to Have Boats in Water Quickly as Possible.

A number of submarine chasers which are to be built at Dean's shipyard in Alexandria are in frame, and work on them is being pushed to have them in the water at the earliest possible moment. The shipyard a few months ago changed owners, and the new managers of the plant installed

machinery, purchased additional ground for the city of Alexandria, reclaimed shoals in front of their plant for building berths for the new craft, and are now giving employment to a large number of men and women.

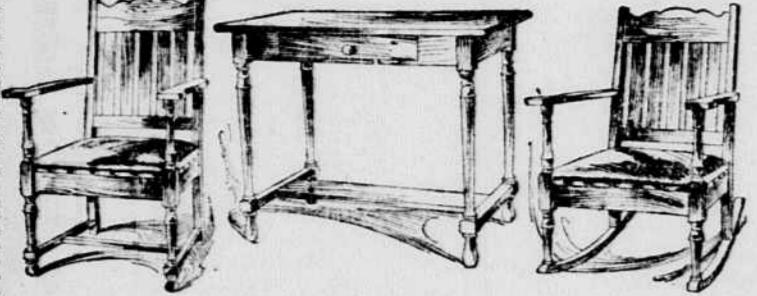

It is stated to be the intention of the owners of this yard to engage in shipbuilding after the war, and Alexandria may see the revival of an industry which, a quarter of a century ago, made a name for itself. Dr. Prosser has been prominent in vocational education affairs for many years.

Seventh and Eye Streets

House & Herrmann

Close Saturdays 1 P.M. Other Days at 5 P.M.

DON'T miss the opportunities offered in this August Sale. If you haven't the cash available, select what you want anyway and charge it.
